## PRESS RELEASE

### Check-ups on Saturdays at HYGEIA

Aiming at consistent, high-quality services for its patients and particularly for employees and businesspeople who cannot or do not want to miss work in order to have medical tests, HYGEIA Hospital further extends the opening hours of its Health Check-up Department to Saturdays from 9.00 a.m. until 13.00 p.m., also providing free parking.

**More than 10,000 health check-ups** are performed annually in the specialized Health Check-up Department of HYGEIA, the **first** of its kind **to have operated in Greece**.

“Our objective is to meet our patients’ rapidly increasing needs by offering more flexible and extensive operating hours in one of the most significant Departments of our Hospital”, said Mr. Andreas Kartapanis, the General Manager of HYGEIA.

Equipped with modern, state-of-the-art medical technology, the Department can carry out a full health check-up within approximately three (3) hours. All medical departments required for a health check-up are located in a single area, and check-ups are properly scheduled and coordinated to prevent unnecessary waiting times between the tests. Therefore, health check-up results are available to the patients or their doctors after three (3) days, together with a medical report on the patient’s health state signed by a specialized pathologist, and specific instructions, if applicable.

For more information or an appointment, please contact with Mrs Sassa Peleki at 210 6867 340 or by e-mail to [checkup@hygeia.gr](mailto:checkup@hygeia.gr).
